

I have listened to KLOVE for 8 years now and even overseas I was able to tune in over the internet. Having KLOVE on the FM dial has also helped me lead people other people to the station and the great music it provides. If KLOVE were no longer on the FM dial I wouldn't be able to listen in my car. I prefer this station over listening to my personal music selection! Providing KLOVE to my community on the FM dial is important because it is wholesome music where families and parents can turn to get music without profanity, bad messages, or even excessive commercials! That's hard to find on the radio.
